Re: Highland Cellular, Inc.,
TTY Report, CC Docket No. 94-102

Dear Ms. Dortch:

On behalf of Highland Cellular, Inc. ("Highland") and pursuant to Order, DA 02-1540, released June 28, 2002, this letter and the TTY Report attached hereto is notification to the Commission that Highland has completed its obligations under the Federal Communications Commission's TTY rule. Accordingly, this TTY Report should be the last report that will be filed by Highland. Further, the waiver that was granted pursuant to the above referenced Order to Highland is now mooted by Highland's completion of its TTY obligations.

If there are any questions in connection with this matter, please direct them to this office.

Very truly yours,

Audrey P. Rasmussen

HIGHLAND CELLULAR, INC.
TTY REPORT
CC Docket No. 94-102
January 15, 2003

1. **Network infrastructure software development**
Highland Cellular, Inc. is using a Nortel DMS-MTX Supernode Sized Enhanced switch to provide TDMA digital wireless services throughout its market. Software load is on current MTX10.
2. **Handset development and testing plans**
Highland Cellular, Inc. has received test phones and terminals to work with the local PSAPS. Test plans were developed and implemented in December 2002.
3. **Beta testing and lab testing**
Highland Cellular, Inc. must rely on Nortel and handset vendors for initial conformance testing. It is Highland's understanding that this has been completed. Confirmed tests December 2002.
4. **Release and general availability to carrier of network infrastructure software**
Highland Cellular, Inc. has implemented the software recommended by Nortel that should adapt the agreed upon TTY solution. Confirmed tests December 2002.
5. **Availability to carriers of full acceptance test units**
Highland cellular, Inc. has received software and hardware. Confirmed working correctly in December 2002.
6. **Efforts toward achieving digital wireless solution compatibility with enhanced TTY devices**
Highland Cellular, Inc. has upgraded its switching software to comply with TTY solutions. Confirmed tests December 2002.
7. **Carrier coordination of testing with PSAP**
See response to item 2 above.
8. **Carrier testing activities, including field testing, consumer end-to-end testing, and other necessary tests**
Highland Cellular, Inc. began and completed testing in December 2002.
9. **Retail availability of necessary consumer equipments**
The handsets and TTY devices are available from vendors. Confirmed December 2002.
10. **Geographic scope of network infrastructure deployment**
Highland Cellular, Inc. currently has two RSAs: WV7 and VA2-A2. Its central office is located in Beckley WV.

Respectfully Submitted
